

**EBC Energy Resources Program  
Energy Program Developments at Massachusetts State Agencies**

Friday, September 22, 2017

Brown Rudnick LLP | Boston

**AGENDA**

8:00 a.m.      **Welcome – John Wadsworth, Chair, EBC Energy Resources Committee**  
Partner, Brown Rudnick LLP

**Program Introduction – Briony Angus, AICP, Program Chair & Moderator**  
Senior Project Manager / Associate, Tighe & Bond

**Update of Energy Program for Massachusetts State Agencies**

8:10 a.m.      **Massachusetts Bay Transit Authority**

- Michael Donaghy, Manager of Energy Efficiency, MBTA

8:30 a.m.      **Massachusetts Department of Environmental Protection**

- James Doucett, Clean Energy Results Program Director, MassDEP

8:50 a.m.      **Massachusetts Department of Energy Resources**

- Joanne Morin, Deputy Commissioner  
Energy Policy, Planning and Analysis, MassDOER

9:10 a.m.      **Massachusetts Department of Capital Asset Management & Maintenance**

- Betsy Isenstein, Director, Energy & Sustainability, DCAMM
- Krista Lillis, AICP, Program Manager, Energy & Sustainability, DCAMM

9:40 a.m.      **Massachusetts Department of Corrections**

- Jeffrey Quick, AIA, Director, Division of Resource Management, MassDOC

10:00 a.m.     **Networking Break**

10:30 a.m.     **Open Panel Discussion with Agency Leadership**

Moderator: Briony Angus, Tighe & Bond

11:30 a.m.     **Adjourn – Closing Comments – John Wadsworth**

## PROGRAM CHAIR

**Briony Angus, AICP**, Senior Project Manager/Associate  
Tighe & Bond  
53 Southampton Road | Westfield, MA 01085  
413.875.1302 | BAngus@tigheBond.com

Briony Angus is a Senior Project Manager and Associate at Tighe & Bond. She manages a variety of renewable energy projects at Tighe & Bond including solar PV, anaerobic digestion, wind, hydro, storage, and resiliency projects. She helps to lead Tighe & Bond's business development efforts for renewable energy, and is responsible for the growth and performance of the firm's renewable energy services. She has an in-depth understanding of regulations and incentives for clean energy development. Briony formerly was an Environmental Analyst at the Massachusetts Environmental Policy Act (MEPA) Office and worked for the Town of Brookline, MA Department of Public Works and Conservation Department.

## SPEAKERS

**Michael Donaghy**, Manager of Energy Efficiency  
MBTA  
10 Park Plaza, Suite 6720, Boston, MA 02116  
617.222.1684 | mdonaghy@mbta.com

Michael Donaghy is Manager of Energy Efficiency for the MBTA. His areas of focus are energy efficiency and conservation, renewable energy and emerging clean energy technologies. For the past six years Michael has worked to implement an energy management strategy that provides tangible environmental, economic and societal benefits at the lowest cost of ownership to the MBTA. Since August 2010, the projects Michael manages have realized an energy reduction over 50 million kilowatt-hours (kWh) while saving the MBTA approximately \$6.1 million over that period. Michael has been recognized as a "Top 40 Under 40" by Mass Transit magazine for his work at the MBTA.

**James Doucett**, Program Director, Clean Energy Results Program  
Massachusetts Department of Environmental Protection  
617.292.5868 | james.doucett@state.ma.us

James Doucett is the Director of the Clean Energy Results Program (CERP) at the Massachusetts Department of Environmental Protection. The CERP program was established in 2011 as a unique partnership with the Department of Energy Resources (DOER) and the Massachusetts Clean Energy Center (MassCEC) to advance environmental protection through the development and permitting of renewable energy and energy efficiency projects throughout Massachusetts, resulting in cleaner air, water and land.

James was previously the Deputy Director for Regulatory Standards in the Bureau of Waste Prevention focused primarily on regulatory and policy development for solid and hazardous waste. Recently he managed the revisions to the solid waste site assignment and permitting regulations to streamline the regulations and to smooth the way for siting anaerobic digestion facilities and other types of conversion projects. James graduated from Kenyon College with a degree in biology and obtained a Masters from the Ohio State University in zoology.

**Joanne Morin**, Deputy Commissioner for Energy Policy, Planning and Analysis  
Massachusetts Department of Energy Resources  
617.626.1034 | joanne.morin@state.ma.us

Joanne Morin serves as Deputy Commissioner of Policy, Planning and Analysis for the Massachusetts Department of Energy Resources in support of Baker-Polito Administration's plan to create a clean, affordable, and resilient energy future for the Commonwealth. She is responsible for directing the policy research and analyses for the Commissioner's consideration related to energy efficiency, renewable energy, green communities and emerging technologies, and coordinates with other agencies in order to assure synergy in understanding and reaching DOER's goals. She supports the Department's efforts and initiatives to meet the Global Warming Solution Act's goal to reduce greenhouse gas emissions 25 percent below statewide 1990 GHG emission levels by 2020, and 80 percent below statewide 1990 GHG emission levels by 2050. She has worked as an environmental consultant and as a corporate environmental, health and safety manager for The Timberland Company where she dealt with, among other things, environmental and labor standards in overseas manufacturing facilities. She served in numerous positions in NH's Department of Environmental Services Air Resources Division where she focused primarily on energy and climate issues and headed up the Governor's Office of Energy and Planning for three years.

**Betsy Isenstein**, Director, Energy & Sustainability  
Division of Capital Asset Maintenance and Management  
PHONE | elizabeth.isenstein@state.ma.us

Betsy Isenstein is the new Director of Energy and Sustainability for the Commonwealth of Massachusetts' Division of Capital Asset Management and Maintenance (DCAMM). The Energy and Sustainability Team designs, guides, and implements the Commonwealth's nationally recognized program for energy and water efficiency improvements in state buildings.

Ms. Isenstein comes to DCAMM from Tufts University where she was the Director of Facilities Technical Services. At Tufts, she provided strategic and forward looking planning in all areas of Facilities Services with a particular emphasis on energy and utilities. Major areas of focus included strategic utility procurement, campus energy and utility systems, building automation, water, and solid waste reduction. Previous to this position, she was the energy manager at Tufts.

Prior to joining Tufts in 1995, Ms. Isenstein managed energy programs for General Electric Company. Ms. Isenstein holds a BSE in Civil Engineering from Tufts and an MBA from Northeastern University.

**Krista Lillis, AICP**, Program Manager, Energy and Sustainability  
Office of Facilities Maintenance and Management  
Division of Capital Asset Maintenance and Management  
857.204.1428 | krista.lillis@state.ma.us

Educated as a planner, Krista is currently a Program Manager in the Energy and Sustainability Group at the Division of Capital Asset Maintenance and Management for the Commonwealth of Massachusetts.

She oversees the statewide metering program and manages the development, procurement and implementation of a wide range of energy projects- from performance contracts to energy design build-all with life cycle improvements. She provides strategic direction for major capital investments totaling \$200 million and has managed over \$70 million in projects and programs covering Public Safety, Higher Education, Health and Human Services, Judicial, and Recreational facilities. Ms. Lillis has over 15 years

of public service experience, working as a water resource planner and an energy planner in Boston, Milwaukee, and Chicago. She holds degrees from University of Wisconsin, Milwaukee and Marquette University and is a certified planner and member of APA and NASFA.

At home, she is a member of her town's Board of Appeals and enjoys time with her kids.

**Jeffrey Quick, AIA**, Director, Division of Resource Management  
Massachusetts Department of Corrections  
508.422.3661 | Jeffrey.Quick@state.ma.us

Jeff started his career with the Commonwealth of Massachusetts in 1983 with the then Division of Capital Planning and Operations (now DCAMM). Moving to the Department of Correction in 1986 as a Sr. Project Manager and becoming the Director of Resource Management in 1999. Jeff is responsible for all aspects of the physical plant Department-wide. He provides technical assistance to facilities, institutions, divisions and other State and Federal Agencies when requested. Jeff also develops and prepares Capital Funding requests and oversees all Capital Projects within the Department. Jeff holds an Associate Degree of Applied Science in Building Construction from the University of Southern Maine and a Bachelor of Architecture from the University of Miami Florida. Along with being a Registered Architect with the Commonwealth of Massachusetts for the past 26 years, Jeff is a member of the American Correctional Association, American Institute of Architects, National Fire Protection Agency, New England Water Works Association, International Facility Management Association and Office of Infrastructure Preparedness.
