PROGRAM CHAIR

Ryan Vescovi, Business Development Manager - Connecticut
National Response Corporation (NRC)
92 Commerce Circle, Durham, CT 06422
203.268.7105 | rvescovi@nrcc.com

Based out of NRC's office in Durham, CT, Ryan has been an integral part of the sales team for over 10 years, focusing on sponsoring clients' needs by expanding relationships through NRC's variety of service lines. Ryan has been a member of the Connecticut Program Planning Committee since 2014 and has helped the planning board to development networking programs for the EBC. Ryan is eager to grow the Ascending Professionals group in Connecticut and is excited to be the Program Chair for our first event.

SPEAKERS

Mike Conklin, Director of Environmental Affairs
Town of Wilton, CT
238 Danbury Road, Wilton, CT 06897
203.563.0182 | Mike.Conklin@WILTONCT.ORG

Mike Conklin is the Director of Environmental Affairs for the Town of Wilton. He started his career working for a private consulting firm in Connecticut before making the transition to the public sector where he has worked for the last 14 years. Mike spends much of his free time with his wife and two boys.

Gary Iadarola, Manager, Environmental Remediation
Eversource Energy
107 Selden Street, Berlin, CT 06037
860.665.3455 | gary.iadarola@eversource.com

Gary is a Licensed Environmental Professional (LEP) and Certified Professional Geologist with more than 32 years of experience in the environmental field. 30 years were spent in the environmental consulting industry conducting investigations and remediation projects in 17 states and Puerto Rico. Gary's experience includes the management of environmental programs, managing and mentoring both technical and administrative staff, the design and implementation of investigation and remediation projects, and business development. Gary currently manages the remediation division of Eversource Energy in CT, MA and NH. The program that he manages conducts approximately \$15M of investigation and remediation each year. The projects that he is currently involved with include the investigation and remediation of sites that range from small sub-stations to large former manufactured gas plants.

Dean Soutanian, Director of Remediation & Proposal Development
National Response Corporation (NRC)
19 National Drive, Franklin, MA 02038
508.966.6026 | dsoutanian@nrcc.com

As NRC's Director of Remediation, Dean is responsible for proposal development, cost estimating, bidding, and management of large public and private projects.

His estimating expertise centers primarily on public sector bids and proposals, as well as large governmental task orders and indefinite quantity contracts and includes both TSCA and non-TSCA PCB remediation and within building materials.

His significant expertise in the design, fabrication and operation of soil and groundwater remediation systems, along with his experience in above and underground storage tank installation and removal, and onsite remedial construction projects, have enabled him to develop innovative and extremely competitive cost and value engineered solutions for design build opportunities.
