PROGRAM CHAIR

Max Forsythe, Business Development Manager
National Response Corporation (NRC)
19 National Drive, Franklin, MA 02038
508.966.6014 | M 508.450.0253 | mforsythe@nrcc.com

Max Forsythe is a member of the NRC's Business Development team where his primary focus is on expanding relationships with clientele through NRC's variety of service lines ranging from industrial cleaning, decontamination, transportation and disposal of waste to large-scale remediation projects. He manages, in a programmatic way, NRC's business offerings primarily in the northeast by sponsoring the needs of our clients to ensure success. Mr. Forsythe has been with NRC for four years and previously worked for an international refractory metal manufacturer as part of their inside sales team.

Mr. Forsythe graduated from the University of Tampa in 2010 holding a degree in Finance.

SPEAKERS

Josh Fontaine, Project Environmental Scientist and New England HSSE Co-Chair

Golder Associates

200 Friberg Parkway, Suite 3019, Westborough, MA 01581

508.329.7961 | Joshua_Fontaine@golder.com

Josh Fontaine has been with Golder Associates for seven years and is currently a project environmental scientist focusing in due diligence and remediation. In 2018, Josh was selected to be the Health, Safety, Security and Environment (HSSE) Co-chair for the Golder New England Operation. In that role, Josh is responsible for communicating all corporate HSSE policies, programs and procedures in addition to coordinating training, and actively promoting a strong HSSE culture. He has completed multiple remediation programs including excavation of impacted material, pump and treat of contaminated water, in situ bioremediation, operation of dual phase extraction systems, and industrial cleaning.

James Rossi, Regional Sales Manager

National Response Corporation (NRC)

114 Bridge Road, Salisbury, MA 01952

978.518.5137 | jrossi@nrcc.com

Mr. Rossi is currently employed by NRC (National Response Corporation) as their Northeast Regional Sales Manager. Jim has 38 years' experience in the environmental, engineering, energy, oil and gas, and mining industries working for NRC, Parsons Corporation, Clean Harbors Environmental Services, Shell Oil Company and Texaco, Inc. Over his career, Jim has had many opportunities to conduct sight walks and manage projects in any number of environments. He has a Master's degree in Finance from Boston College and a BS in Mining and Petroleum Engineering from West Virginia University. Jim is a Certified Hazardous Material Manager. He has resided in the New England area for over 25 years and currently lives with his family in Newburyport, MA.

William Taber, Senior Project Manager

VHB

101 Walnut Street, Watertown, MA 02471

617.607.2171 | WTaber@VHB.com

Bill is a Senior Project Manager with extensive experience in a wide variety of oil and hazardous materials compliance matters. Bill is VHB's lead design engineer for sub slab depressurization systems and fuel storage tank services and has played a key role on numerous projects for public- and private-sector clients, including state agencies, municipalities, and institutions. He is a Professional Engineer registered in Massachusetts, Maine, New York, New Hampshire, Rhode Island, Connecticut, and Vermont.

Environmental Business Council of New England, Inc.

375 Harvard St, Suite 2 Brookline, MA 02446
