

**EBC Connecticut Remediation Program
A Primer on the Evolving Remediation Regulations and PFAS Issue in Connecticut**

Tuesday, June 11, 2019

Eversource Energy | Berlin, Connecticut

AGENDA

- 8:00 a.m. Welcome:** Daniel Moon, President & Executive Director, EBC
- Welcome to Eversource Energy:** Gary Iadarola, Manager, Environmental Remediation
- Introduction and Program Overview – What You Will Learn**
- Lucas Hellerich, Ph.D., P.E., LEP, Program Chair and Moderator
Senior Technical Practice Leader, Woodard & Curran
- 8:20 a.m. Revisions and Updates for Connecticut Remediation Regulations**
- Kevin Neary, Environmental Analyst III
Connecticut Department of Energy and Environmental Protection
- 8:50 a.m. Connecticut Regulatory Framework for Emerging Contaminants (PFAS)**
- Shannon Pociu, Environmental Analyst III, Remediation Division
Bureau of Water Protection and Land Reuse
Connecticut Department of Energy and Environmental Protection
- 9:20 a.m. LEP Perspectives on New Remediation Regulations & Updates**
- Discussion Moderator:** Lucas Hellerich, Woodard & Curran
- Presenters and Panel Members:**
- Malcolm Beeler, Team Leader, PCB Technical Lead, Weston and Sampson
 - Larry Hogan, Associate Vice President, AECOM
 - Sarah Trombetta, Office Practice Leader, TRC
- 10:30 a.m. Adjourn – Closing Remarks – Lucas Hellerich**

PROGRAM CHAIR

Lucas Hellerich, Ph.D., P.E., LEP, Senior Technical Practice Leader
Environmental Remediation Services
Woodard & Curran
213 Court Street, 4th Floor, Middletown, CT 06457
(203) 699-6081 | M (860) 367-2470 | LHellerich@woodardcurran.com

Lucas Hellerich is Senior Technical Practice Leader for Environmental Remediation Services for Woodard & Curran. He graduated from the University of Connecticut with degrees in Civil and Environmental Engineering. He is an environmental engineer with experience in remedial process optimization, contaminated site assessment and remediation, exit strategy development, peer review, liability valuation, and regulatory support. He provides technical leadership for and supports projects throughout the United States and in several other countries.

SPEAKERS

Malcolm Beeler, Team Leader, PCB Technical Lead
Weston & Sampson
273 Dividend Road, Rocky Hill, CT 06067
(860) 513-1473 | BeelerM@wseinc.com

Mr. Beeler is a Senior Project Manager and Team Leader with Weston & Sampson Engineers in Rocky Hill, CT. He is a Licensed Environmental Professional with 30 years of experience in the environmental consulting industry focused on creative problem solving, project management, site investigation, contaminant remediation and environmental compliance. His consulting practice presently includes site investigation and remediation for PCBs in soil, groundwater, and building materials at numerous sites. He has a Master's Degree in Environmental Engineering and Bachelors of Science degrees in Chemistry and Civil Engineering, all from the University of Texas at Austin.

Larry Hogan, Associate Vice President
AECOM
250 Apollo Drive, Chelmsford, MA 01824
(978) 905-2249 | larry.hogan@aecom.com

Mr. Hogan is currently an Associate Vice President in AECOM's Environment Division and has 35 years of experience. He has been a Licensed Environmental Professional in Connecticut since the program's inception and has brought many projects through site investigation and remediation to verification of compliance under Connecticut Department of Energy and Environmental Protection's Remediation Programs using the Site Characterization Guidance and the Remediation Standard Regulation. Mr. Hogan is also a Licensed Site Professional in Massachusetts, and a Registered Professional Geologist in the States of Delaware and New Hampshire. Mr. Hogan has a Bachelor of Science in Environmental Science- Geology Focus from the University of Lowell (n.k.a. UMass Lowell). His investigation and remediation expertise within the State of Connecticut and elsewhere includes a wide variety of facilities including but not limited to; motor vehicle fleet operation centers, retail petroleum sites, unpermitted waste disposal sites, active and inactive bulk petroleum storage facilities, energy facilities, active and inactive industrial manufacturing facilities, R&D laboratory facilities, medical laboratories, and brownfield sites.

Kevin Neary, Environmental Analyst III
Connecticut Department of Energy and Environmental Protection
79 Elm Street, Hartford, CT 06106
(860) 424-3947 | kevin.neary@ct.gov

Mr. Neary has been an Environmental Analyst with the Remediation Division of the Connecticut Department of Energy and Environmental Protection since 2004. Mr. Neary's responsibilities include managing sites that have entered various DEEP remedial programs. Mr. Neary oversees all notifications under DEEP's significant environmental hazard notification statute within north central Connecticut. He also is one of the lead reviewers, within the Remediation Division, of new ground water diversion applications for potential hydrologic impacts. Mr. Neary is the Remediation's primary data manager. He is currently redeveloping a site tracking databases for online use which will include GIS site locations. Also, he is a key contributor to the Wave 2 RSR revisions. Mr. Neary graduated from the University of Rhode Island in Kingston, RI in 2002 with a B.S. in Geology. He received an M.S. in Geosciences/Hydrogeology from the University of Rhode Island in 2004.

Shannon Pociu, Environmental Analyst III, Remediation Division
Bureau of Water Protection and Land Reuse
Connecticut Department of Energy and Environmental Protection
79 Elm Street, Hartford, CT 06106-5127
(860) 424-3546 | shannon.pociu@ct.gov

Shannon Pociu is an Environmental Analyst 3 at the CT DEEP where she has worked in the Remediation Division within the Bureau of Water Protection and Land Reuse for 19 years. In addition to managing the cleanup of State and Federal Superfund sites, potable water projects, and other remediation sites, she is the Remediation Division's lead on PFAS and emerging contaminants and the Agency's lead on PFAS. Prior to employment with the state, Shannon worked in environmental consulting for 4 years. Shannon is a graduate of the University of Connecticut and holds a Master's Degree in Environmental Science from the University of New Haven.

Sarah Trombetta, Office Practice Leader
TRC
21 Griffin Road North, Windsor, CT 06455
(860) 298-6219 | strombetta@trcsolutions.com

Ms. Trombetta has 33 years of experience and is the Office Practice Leader for TRC's Engineering, Construction and Remediation Practice in Connecticut. She also serves as an LEP and Senior Project Manager for remedial program implementation for commercial, industrial and government clients. She is presently managing multiple Brownfields programs in Connecticut where her responsibilities include management and senior technical review of site assessments, remediation services, coordination with federal and state agencies, and community outreach efforts. Ms. Trombetta has a Bachelor of Science in Geology from Lafayette College and a Master of Science in Geology from the University of Massachusetts. She is also a Certified Professional Geologist.

UPCOMING EBC PROGRAMS

JUNE 2019

- June 12 – Solid Waste Management Program: New England Conference of State Solid Waste Directors
- June 13 – Solid Waste Management Discussion: MassDEP Solid Waste Master Plan for Years 2020-2030
- June 14 – Site Remediation and Redevelopment Program: Risk Communication
- June 17 – Rhode Island Chapter Program Planning Luncheon
- June 19 – EBC 26th Annual EBEE Awards and 29th Annual Meeting**
- June 21 – Ocean and Coastal Resources Program: Innovative Data Collection Techniques
- June 24 – Infrastructure Committee Program Planning Meeting
- June 25 – New Hampshire Program: The Future of PFAS Regulation and Cleanup in New Hampshire

JULY 2019

- July 9 – Water Resources Program: PFAS in the Drinking Water Supply
- July 10 – Connecticut Summer Gathering at the Thomas Hooker Brewing Company**
- July 11 – Energy Resources Program: Briefing by New England State Energy Directors
- July 12 – New Hampshire Briefing from NHDES Commissioner Robert Scott
- July 16 – Climate Change Program: Severe Weather & Emergency Preparedness Tools for Facilities
- July 17 – Site Remediation Program: Update from U.S. EPA Brownfields Program
- July 18 – Ascending Professionals Committee “Year in Review” Celebration Night
- July 23 – Connecticut Emerging Contaminants: Identifying Risks from PCBs in Building Materials**
- July 24 – Emerging Contaminants Program: PFAS Remediation and Disposal
- July 26 – New England Climate Change Summit
- July 30 – Connecticut Emerging Contaminants Program: PFAS Overview**
- July 31 – Emerging Contaminants: Treatment and Disposal of PCB Contaminated Building Materials
