P
PROGRAM CO-CHAIRS

Max Forsythe, Business Development Manager
US Ecology
19 National Drive, Franklin, MA 02038
(508) 966-6014 | M (508) 450-0253 | mforsythe@nrcc.com

Max Forsythe is a member of the US Ecology's Business Development team where his primary focus is on expanding relationships with clientele through US Ecology's variety of service lines ranging from industrial cleaning, decontamination, transportation and disposal of waste to large-scale remediation projects. He manages, in a programmatic way, US Ecology's business offerings primarily in the northeast by sponsoring the needs of our clients to ensure success. Mr. Forsythe has been with US Ecology for six years and previously worked for an international refractory metal manufacturer as part of their inside sales team. Mr. Forsythe graduated from the University of Tampa and holds a degree in Finance.

David Foss, CPG, LSP, Senior Vice President – Principal Geologist
Wilcox & Barton, Inc.
#1B Commons Drive, Londonderry, NH 03053
(603) 369-4190 x523 | M (401) 330-9566 | dfoss@wilcoxandbarton.com

David Foss is a Principal Hydrogeologist who leads the Brownfield Redevelopment practice at Wilcox & Barton, Inc., connecting a broad range of public and private development interests. Focusing on the remediation and redevelopment of hazardous waste and petroleum-contaminated sites, he finds great satisfaction in the revitalization of urban neighborhoods and the social benefits of economic renewal. He identifies and implements solutions for projects involving difficult regulatory and technical issues. David is an expert in Brownfield incentive programs and policy. He identifies and implements solutions for projects with challenging environmental histories amid overlapping regulatory programs for Wilcox & Barton, Inc. projects.

David is active in numerous civic and professional organizations including the Licensed Site Professional (Massachusetts), Rhode Island Society of Environmental Professionals, the American Institute of Professional Geologists (AIPG), and the Massachusetts Geologic Society. He is a Certified Professional Geologist and Licensed Site Professional.

SPEAKERS

Kathleen Brill, Partner
Foley Hoag LLP
155 Seaport Boulevard, Boston, MA 02210
(617) 832-1229 | KBrill@foleyhoag.com

Kathleen Brill is a Partner at Foley Hoag LLP who concentrates her practice on complex environmental and land use matters. Kathleen leverages her experience in the environmental consulting and real estate development fields to assist her clients in acquiring, protecting, and developing properties. On behalf of her clients in the public, private, energy, institutional, and development sectors, she has handled matters related to environmental permitting, regulatory compliance, environmental due diligence, environmental insurance, and government investigations. Kathleen has been recognized by Chambers USA as a leading practitioner of environmental law.

Kathleen has helped clients acquire permits at the local, state, and federal levels, and frequently coordinates the efforts of environmental, transportation, architectural, geotechnical, marine and other specialty
consultants to ensure cohesive presentations before regulatory authorities. Particular areas of expertise include zoning, wetlands/Chapter 91 licensing, outdoor advertising, Article 97 protections, Massachusetts Environmental Policy Act (MEPA) compliance, National Environmental Policy Act (NEPA) compliance, and Clean Air Act permitting and compliance.

Kathleen has a B.A. from Harvard College and a J.D. from Boston College Law School. Kathleen is active in numerous civic and professional organizations, and has held leadership positions with her local Civic Association in the Fenway neighborhood of Boston and the National Association of Industrial and Office Properties (Massachusetts Chapter).

**Patricia M. Pinto**, Senior Vice President and Principal
Sanborn Head & Associates, Inc.
1 Technology Park Drive, Westford, MA 01886
(978) 577-1012 | ppinto@sanbornhead.com

Tricia is a Senior Vice President and Principal at Sanborn, Head & Associates, Inc., a firm specializing in environmental and geotechnical engineering, with offices throughout New England and beyond. Tricia leads Sanborn Head's Developer Client Service Area, a group which provides services to the greater Boston real estate development market. With 20 years in the industry, Tricia has focused on evaluation of business environmental risk in support of real estate negotiations in the development industry, as well as investigating and remediating contamination for clients. Her key areas of practice include hydrogeologic and environmental investigations, remedial system design and implementation, and environmental due diligence.

Tricia is a Massachusetts Licensed Site Professional (LSP), a Massachusetts Professional Engineer (P.E.) and a Connecticut Licensed Environmental Professional (LEP). Tricia's strong technical background and understanding of environmental issues complements her working knowledge of regulations governing hazardous waste site cleanup activities, including the Massachusetts Contingency Plan and Connecticut Remediation Standard Regulations.

Tricia has a B.S. in Agricultural and Biological Engineering from Cornell University (1996) and a M.Eng. in Civil and Environmental Engineering from the Massachusetts Institute of Technology (2000).

Tricia participates as an active member of several professional associations and has served on numerous committees within those organizations. She serves a Board Member of the Environmental Business Council of New England and for CREW Boston. Tricia is also a member of the President's Council of Cornell Women.

**Amy Roth**, Associate Vice President
Wilcox & Barton, Inc.
#1B Commons Drive, Unit 12B, Londonderry, NH 03035
(774) 392-5702 | aroth@wilcoxandbarton.com

Amy is a successful Project Director with expertise in numerous facets of the environmental industry earned over 25 years. She directs and manages projects, multidisciplinary scientific teams, and specialty contractors at project sites throughout New England, consistently developing and implementing creative solutions for complex environmental problems. Amy drives project schedules and execution with passion. She is accessible and responsive, and resolves environmental matters with clients' objectives foremost in mind. Amy specializes in environmental due diligence, property redevelopment, indoor air, and the investigation and remediation of oil and hazardous materials subject to MGL Chapter 21 E and the Massachusetts Contingency Plan. Amy also provides compliance consulting and emergency services for utilities and manufacturing clients.
Amy received her master's degree in Geology/Geochemistry from Washington University in St. Louis. Amy is a licensed Professional Geologist (PG) and a Licensed Site Professional (LSP). She is an active member of the LSP Association Technical Practices Committee and works regularly with industry leaders and regulators. In addition to her areas of professional interest, Amy is a member of her town Solid Waste Advisory Committee and volunteers time in support of improving recycling, minimizing waste generation, and expanding local composting.
