Jessica Yeager, PE (MA), LSP is a senior remediation engineer at Geosyntec Consultants with over ten years of experience developing remedial designs for brownfields sites. She has her S.B. from Harvard in Environmental Engineering and her M.Eng. in Environmental Engineering from MIT. She has designed many different remedial systems for Fortune 100 companies. Lately, her focus has been on providing innovative remedial solutions for brownfields redevelopments in metro Boston, including vapor intrusion evaluation and mitigation. She is an active member of the Society of Women Engineers and the Vice Chair of the Ascending Professionals Committee for the Environmental Business Council of New England. Jessica received the EBC Ascending Leader Award in 2019 and was named one of the 2020 ENR New England Top Young Professionals.
